Education Background

● Masai School (NSDC), Bengaluru

Full-Stack Web Development

DECEMBER 2021 - OCTOBER 2022

● B.Sc - Computer Science

Vaish College, Rohtak

JULY 2018 - AUGUST 2021

● Higher secondary education (science)

Govt. sr. sec. school, Bahadurgarh

MAY 2016 - MAY 2018

About Me

I am passionate about creating innovative and user-friendly web applications. I thrive in challenging environments that push me to constantly enhance my skills and knowledge. My goal is to contribute my expertise, creativity, and dedication to developing cutting-edge solutions that make a positive impact on users and businesses alike. I am excited to embark on this journey and collaborate with a dynamic team to drive technological advancements in the digital world.

Professional Experience

Software Developer (SDE - 1)

Lendbox, Gurugram

MAY 2023 - JULY 2023

Key responsibilities:

- **Handling Support Tickets:** Address and resolve support tickets promptly, providing effective solutions to technical issues raised by the business team or users.
- **Product Functionality Development:** Collaborate with stakeholders to design and develop new features for the P2P lending platform, ensuring scalability and security.
- **Bug Fixing and Maintenance:** Identify and resolve software defects, perform regular maintenance, and conduct thorough testing to ensure platform stability.
- **Collaboration and Communication:** Work closely with cross-functional teams, fostering effective communication to achieve smooth development processes.
- **Performance Optimization:** Identify and address performance bottlenecks, monitor application performance, and implement optimization strategies to improve platform efficiency.

Associate Developer / Instructor

Masai School, Bengaluru

OCT 2022 - MAY 2023

Key responsibilities:

- Develop and maintain software applications.
- Collaborate with cross-functional teams to gather requirements and translate them into technical solutions.
- Use version control (e.g., Git) to manage codebase and facilitate team collaboration.
- Conduct thorough code reviews to ensure quality and knowledge sharing.
- Identify and troubleshoot technical issues through systematic debugging.
- Work within Agile/Scrum methodology, contributing to daily stand-ups and sprint planning.
- Create comprehensive technical documentation for designs and APIs.
- Optimise code for performance, scalability, and responsiveness.
- Stay updated with industry trends and integrate new technologies when relevant.
- Collaborate closely with designers and product managers to align design and functionality.
- Provide mentorship and guidance to junior developers.
